About The Erb Group

The Erb Group is a leading refrigerated transportation carrier in the food industry, providing service across North America. Erb is known for its commitment to family and community initiatives. Erb has earned recognition as 2023 Best Fleets to Drive For and 2023 Top Fleet Employers. As a transportation industry leader, we are committed to making a positive difference for our employees, customers, and communities. We understand the importance of having engaged employees who strive to provide the best customer service possible. This approach not only leads to happy customers, but also to business growth and profitability. We conduct our business with uncompromising ethics and integrity, we encourage diversity and recognize different perspective as a strength, we have trust and respect for our team members. The Erb Group strives for excellence in everything that we do.

Plan Reporting

As required by the Accessible Canada Act, we will publish a progress report every year that measures our progress against our commitments. We will also monitor, evaluate, and update our Accessibility Plan every three years. Progress Reports and updates to our Accessibility Plan will be shaped by consultation with persons with disabilities.

Consultation

Erb has surveyed employees with disabilities to request feedback and suggestions to our Accommodations Plans that would best suit individuals through a disability lens. Employees were provided anonymity in attempts to remove any additional barriers. Erb has created a working group with various departments to strategize continuous solutions to remove on-going barriers, streamline progress to complete our accessibility goals, and to ensure best practices are communicated throughout various departments. Erb will continue to be active in accessibility networks that provide participation, strategies, and education surrounding a barrier-free organization.

Executive Summary

This plan will outline The Erb Group strategies to reduce barriers and support a culture of diversity and inclusion. The Erb Group has identified ten organizational goals to eliminate barriers in our organization.

Goal 1: Create a culture of accessibility across all terminal locations and remote workspaces.

Goal 2: Implement accessibility best practices through our Recruitment and Human Resources team so they may recruit, retain and support employees who a part of this designated group.

Goal 3: Ensure employees have workspaces free of physical barriers.

Goal 4: Provide accessibility training to management to increase advocacy for accessibility best practices on behalf or their employees.

Goal 5: Implement a Human Capital Management (HCM) system accessible for all employees and external users.

Goal 6: Continually assess current information technology (IT) systems for accessibility improvements and create action plans with specific timelines.

Goal 7: Create a process where the employees, customers and the public can request barrier-free alternative formats of communication within a timely manner.

Goal 8: Ensure accessibility is considered from the start of our procurement process.

Goal 9: Create and revise current policies, procedures, and process with the lens of accessibility and support from subject matter experts.

Goal 10: Ensure drivers who require an alternative truck seat for motor related disabilities are provide an alternative seat where applicable.

Statement of Commitment

The Erb Group is committed to creating and maintaining an accessible workplace. We recognize that accessibility is an ongoing process, and we are dedicated to continuously improving our policies, procedures, and practices to ensure all employees have equal opportunities to participate in all aspects of our organization. By prioritizing accessibility, we aim to create a culture of inclusion and respect for all individuals.

Definitions

SOP: Known as a standard operating procedure, is a set of written instructions that describes the step-by-step process that must be taken.

ICT: ICT, or information and communications technology (or technologies), is the infrastructure and software components that enable modern processing.

Accessibility: Refers to the needs of persons with disabilities being intentionally and thoughtfully considered when products, services and facilities are built or modified so they can be used and enjoyed by persons of all abilities.

Barrier: The Accessible Canada Act defines a barrier as “anything—including anything physical, architectural, technological or attitudinal, anything that is based on information or communications or anything that is the result of a policy or a practice—that hinders the full and equal participation in society of persons with an impairment, including a physical, mental, intellectual, cognitive, learning, communication or sensory impairment or a functional limitation.”

Disability: The Accessible Canada Act defines a disability as “any impairment, including a physical, mental, intellectual, cognitive, learning, communication or sensory impairment—or a functional limitation— whether permanent, temporary or episodic in nature, or evident or not, that, interaction with a barrier, hinders a person’s full and equal participation in society.”
